

CAVARE

"Designing and Manufacturing Drilling Tools Since 1999"

EASY DRILL™ "M"*

Cavare's Easy Drill™ "M" is the latest in mud lube technology. Built with large mandrel diameters, high capacity diamond thrust and tungsten-carbide radial bearings provide longer service life and lower R&M cost. The short bit to bend produces higher build rates allowing more rotation while reducing slide intervals improving ROP in all directional applications. It also reduces the trip time by allowing the customer a one motor curve and lateral system.

OD	B2B	WOB	Max Over-pull	Max Pull to Yield
3 1/8"	N/A	24,000 lbs	35,000 lbs	145,000 lbs
79mm	N/A	10,900 daN	15,900 daN	66,000 daN
5"	45"	65,000 lbs	65,000 lbs	250,000 lbs
127mm	1.14m	28,900 daN	28,900 daN	110,000 daN
7"	47"	80,000 lbs	80,000 lbs	475,000 lbs
